

Experiencing difficulty with memory or thinking? Isaac is here to help.

Care for you or a loved one

Your personal care navigator and a team of specialists will take care of all your needs.

Covered by insurance

We accept most insurances, including Medicare and Medicaid. Call us at (888) 818-2059 if you have coverage questions.

Safe and secure

You can easily talk to your doctors and care navigator from home. You can also call our hotline anytime.

Based on evidence

Isaac Health's care model follows the latest treatment guidelines and is based on evidence.

Memory care that helps you **enjoy life to the fullest.**

Isaac Health provides:

- ✓ Assessments for memory and thinking
- ✓ A care plan that works for you, created by your specialist doctors
- ✓ Treatment and therapies designed to help with memory and thinking
- ✓ Help managing your medications

As a bonus, you'll also get:

- ✓ A hotline for caregivers with trained staff
- ✓ Training to help you (or a loved one) stay independent in everyday activities
- ✓ Help with getting connected to local and online communities for support
- ✓ Regular check-ins with doctors and other specialists to stay on top of your care
- ✓ Resources for caregivers in our app
- ✓ If needed, in-person and phone help for using our medical services

What's next?

1

Book an appointment

with your care navigator – your personal guide for the journey.

2

Meet your care team

of doctors and therapists who will provide you with a care plan made just for you.

3

Receive ongoing care

including therapies that assist with memory and thinking, help with managing medications, and regular check-ins with specialists.

Start taking
control of your
brain health
today.

I stopped having concerns about my memory

Every session I had with Isaac Health felt like a party. We were always dealing with my concerns from my memory and what my care team had scheduled to teach me week by week. The process worked so well that over the weeks that we talked, **I noticed I stopped having concerns about my memory** as I aged because I could see that it was working.
